Dear Partner and Friend:

As the healthcare market continues to change and evolve, the one constant is our committed passion in serving our loyal dealer network. Barco is and will remain dedicated to your success and we're focused on serving you at the highest level in the industry.

We are excited to launch our newest brand, **Motion by Barco®** which offers more value and performance than any other scrub in the market at a very affordable price point. You'll see all the details of this exciting new brand on the following pages of this catalog.

More great news...our partnership with ABC for the Grey's Anatomy™ license began in 2006 and we are thrilled to confirm that we have extended our licensing agreement and partnership through 2027. Grey's Anatomy™ is a global brand that millions of healthcare professionals have chosen to wear since the beginning of their careers and they remain loyal today.

We feel incredibly blessed to have you as our loyal customers, partners and friends. We are confident that our future is brighter than ever and filled with new opportunities.

Profession: Family Doctor

The word innovation takes on a unique meaning in the healthcare field. It can mean finding innovative ways to care for your patients beyond medicine or maybe using innovation through technology to research, treat and cure patients with health issues. There has been quite a lot of press around the topic of AI (Artificial Intelligence) and ML (Machine Learning) in the medical field, but one thing will never change no matter how advanced medical research technology becomes; the passion, caring and sense of purpose that comes from within healthcare professionals hearts will never fade over time.

As a nurse, it is important to recognize you cannot provide the best care for your patients on your own. For this reason it's important to be inclusive with your fellow healthcare team. I always make sure to reach out to members of my team like respiratory therapist, nutritionist, case management etc. to help provide my patients with the quality of care they deserve. You can't be an expert at everything!

Occupation: Cosmetic and Cardiac Nurse

Nurses never get to walk into work knowing what our day is going to throw at us! Some shifts start off crazy, and end calm, while many start off wild and still end wild! It's like playing Russian Roulette most days. To keep up with the wild and crazy, we have no choice but to get creative! No two situations are ever the same, and as a result, we have to adjust and be flexible to keep our patients safe and provide them with the best possible care...and of course add a little fun in there too! Creativity is one of the most useful assets all nurses possess!

## THANKFUL

**Jessica Sonnentag**

Occupation: Dental Student

**Instagram Handle: @jessonntag**

I am thankful to have a career in dentistry because the prevalence of oral health is both immediate and life-long. Dentists aid in short term fixes such as helping patients be more comfortable with their smiles through fixing a broken tooth or relieving the pain of a toothache. On the other hand, poor dental health is linked to increased risk of several systemic diseases. The combination of instant gratification from patients as well as knowing I am aiding in patients life-long health, makes me thankful for such a great profession.

# COMFORT

**Reuben Horace**

Occupation: Medical Student

**Instagram Handle: @reubixxcube**

Comfort within medicine is a multidimensional idea that encompasses the core beliefs of personal growth and action. I am comforted by the believing my long nights studying and personal sacrifice will bode well for me in my future career. Comfort, however, is not always easy. We must first acknowledge the unproductive thoughts and ineffective behavior that we've tried to ignore which can be both difficult and uncomfortable. But, stepping out of our comfort zone and choosing to proactively address bad habits will skyrocket one's ability to create long-lasting change.

Profession: Small Animal Veterinarian

Instagram Handle: @dogtorwilly

As a veterinarian I have to be protective of my patients' and client's interests knowing that my clients can't always provide financially, physically, and emotionally for their pets. Taking that into account, I am the voice for my patients whom can't speak for themselves and make sure to always meet their individual needs. Being a veterinarian is my lifelong dream and I wouldn't trade that responsibility for anything.

## Made to Matter

### HOW TO MEASURE

Take all measurements over undergarments using standard measuring tape held in a relaxed straight line.

**Chest:** Place measuring tape under the arms to measure the distance around the shoulder blades and the fullest part of the bust/chest. Do not hold the tape too tight.

**Waist:** Place measuring tape around the natural waistline.

**Low Hip:** Stand with feet a few inches apart and measure around the fullest part of your hips wearing your undergarments.

**Inseam:** Measure from the crotch to the desired length of the pant, breaking at the top of the shoe and just above the heel in the back. Appropriate shoes should be worn.
