

GOLF

SPRING 2020

JORDAN SPIETH
UA MAJOR CHAMPION

PERFORMANCE DNA

Every Under Armour® product is doing something for you: it's making you better. Following are the core pieces of DNA that deliver on this promise. The building blocks of performance.

STORM

ALWAYS STAY DRY. A tiered system of water & wind protection that keeps you dry in any wet weather situation.

ISO-CHILL

Fabric helps disperse body heat, making it feel cool to the touch

RUSH

Innovation captures and recycles your body's wasted energy to promote More Energy, More Strength, & More Stamina

WEAR THIS TO FEEL WARM, DRY & LIGHT. This is the layer athletes trust when the mercury drops. ColdGear® eliminates the need to wear heavy, bulky gear in cold weather.

WEAR THIS TO FEEL COOL, DRY & LIGHT. The original innovation our founder dreamed up. This super-breathable fabric wicks sweat and regulates body temperature so you feel cooler, drier, and lighter than ever.

ART PROCESS METHODS

Every Under Armour® graphic tells a story. Let ours tell yours.

X Our screen print process method for all Tech and other Polyester based fabrications. This process method is designed to give the most accurate color while also preventing dye migration.

CC Used for our Charged Cotton and Tri-Blend platforms. It is available in based (XCC) and un-based (PCC) options to give a clean, graphic look vs. a softer, weathered feel.

LTX Our Microthread fabrics have a lighter weight than our other fabric platforms; this process allows for less ink coverage with open type and smaller graphics overall.

E Embroidery is a cornerstone decoration process for our Golf and Outerwear collection.

VT VersaTwill is a patch process that utilizes other fabrics much like traditional appliqué. It is superior to appliqué with its larger library of fabric choices and techniques. Also, since it's applied with adhesive, there is no messy stitching on the inside of the garment.

VTP A special VersaTwill process specifically for polos and outerwear. This can give this category and modern and elevated look versus traditional embroidery.

SIZING AND FIT

Under Armour® Performance has already compensated in the design of its apparel to be consistent with normal (XS-4XL) sizing. Please order the size you would wear in a non-performance garment. All sizes are in inches.

MEN'S	SM	MD	LG	XL	XXL	3XL	4XL
CHEST	34-36	38-40	42-44	46-48	50-52	54-56	60

ULTRA-TIGHT, 'SECOND-SKIN' FIT
These products fit snugly to the body, providing a close, lean and supportive fit

CONTOURED TO THE BODY
Designed to be very close to the body without the constriction of compression.

GENEROUS CUT, OVERSIZED FIT
Generous cut product, providing full range of motion and a full, loose fit.

Cold press is a patch application that allows for great detail and an amazing hand. Available on a myriad of product from Golf polos to Quarter Zips, Sports Bras, and Shorts.

An updated technique for the left chest decoration, **Raised Silicone Patches** give the graphic a 3-D effect with durable, silicone rubber. These patches hold great color and detail and offer a modern, raised look for our Golf collection.
